SAVE A LIFE (OR TWO)

My dad always took the time to ensure his children were safe. As soon as he noticed one of us doing something wrong or unsafe, he let us know immediately so it didn't become a bad habit. I remember getting in serious trouble once when I unbuckled my seat belt just before we'd reached our destination. You'd think that would be a lesson I'd never forget. Unfortunately, I did.

FLIGHT INSTRUMENTS

The weather in Regional Command South can change rapidly, so you need to be prepared to execute IIMC procedures. In our case, we made it in safely, but not without a major butt pucker factor for the last minute or two.

WHAT'S MODERATION?

I love to hang out and have a few drinks with my friends. The bonding that takes place during those fun times is priceless. Sometimes, though, the fun can go too far. When it does, not only can it ruin your night, it could cost you your life.

DID YOU KNOW?

On the home front, a Soldier's "battle buddy" is often his or her Family, and engaged Families can make a huge difference in the safety of our off-duty Soldiers. The Family Engagement Kit provides the tools on how to become an effective battle buddy, including facts, videos, real-life stories, resources and tips.

SAFETY FEATURE

ATV You know how to drive an ATV safely, but what about the risks?

Training, Discipline and Standards
Training, discipline and standards are the backbone of our Army, and as Soldiers, you're first taught what right looks like. As leaders, you have a duty and a responsibility to maintain standards in your formations. You also have an obligation to your Soldiers and their Families to manage risk and take action to correct problems. In our fight against accidental injury and fatalities, knowledge is the weapon of choice.
