MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: United States Army Garrison Humphreys and Area III Operations Security (OPSEC) Policy Letter #72, OPSEC Responsibility

1. The proponenty for this policy is the Directorate of Plans, Training, Mobilization and Security.
2. This policy is effective immediately. It remains in effect until rescinded or superseded.
3. Every member of USAG Humphreys is responsible for OPSEC and the protection of our mission. Our success requires your active involvement.
4. The threat is real! We are involved in an information war. Adversaries monitoring our activities, conversations, and communications use various tactics to gain information that can be used against us. We must maintain a constant awareness of our actions, use secure voice phones (STE/VOIP) to the maximum extent possible, and cease "shop talk" in environments where individuals without the need to know might overhear.
5. OPSEC is our first line of defense against hostile intelligence collection efforts. These security measures are key means of preventing, detecting and subverting an adversary's indirect actions on our mission. OPSEC awareness and countermeasures must continue to evolve as our information operations and technology advance.
6. Everyone must believe in the OPSEC process as a way to maximize our potential for successful operation in the information age.
7. The USAG Humphreys OPSEC Program Manager will establish an OPSEC Working Group that will stay abreast of any changes within the OPSEC program while working together to ensure the success of the program. The responsibility to support the USAG Humphreys OPSEC program rests with each individual assigned to this command.
