Office of the Commander

YOKWE YUK
(Welcome)

U.S. Army Garrison Kwajalein Atoll/Ronald Reagan Ballistic Missile Defense Test Site is one of the most unique and dynamic communities within the United States Army. Our Installation is comprised of Soldiers, government Civilian employees, contract personnel (U.S. and Host Nation) personnel, and their accompanying family members who work together to maintain a world class missile test range and space operations base. We also maintain a long-standing international partnership with the Republic of the Marshall Islands, and routinely conduct a broad range of activities in support of our command's quality of life, as well as community outreach activities in support of our relationship with the local Marshallese populace.

Regardless of the length of your stay, Kwajalein will provide you with many interesting opportunities. I invite you to take advantage of the island lifestyle and experience all that Kwajalein has to offer, even if it is simply relaxing along the ocean reef or at one of the pristine beaches while listening to the surf. In your contact with the Marshallese people you will find them to be genuinely friendly, caring, and generous. Take the opportunity to get to know them. I trust your experience here will be memorable and will remain with you long after you complete your visit, regardless of the length of your stay.

The Kwajalein Telephone and Island Directory contain more than just a phone listing. It also includes maps of the island, important safety rules and guidelines, and natural disaster plans, and hours of operation for most of our facilities. The safety rules, guidelines and natural disaster plans we have in place for the community apply to you during your visit, as well. It is important for you to read and understand them in order to fully enjoy your visit here while avoiding any unnecessary problems.

Today, as in the past, the men and women of the U.S. Army Garrison Kwajalein Atoll/ Reagan Test Site are performing an important mission that is essential to the security of our nation. I am pleased to have you join us.

REGINALD R. GOODEN
