MR. EXTRA-CAUTIOUS

As many parents can relate, having multiple children and the sibling rivalries that go with it can be distracting at times — especially when you're driving. I pride myself for being very careful when behind the wheel. So, as you can imagine, I was completely beside myself when I, of all people, "Mr. Cautious," not only got into an accident, but did it with my three young children in the back seat.

REASON FOR TWO

The aircrew ran through a myriad of required tasks, then entered the pattern to conduct required maneuvers — one of which was responding to an engine failure at cruise. Having conducted the required ground/hover prerequisite maneuvers, off they went.

THE THIRD LAW

Riding in control of your mountain bike will help you prevent crashes and keep others on the trail safe. When riding out of control, you lose the ability to adjust to the terrain. This can — and usually does — result in serious injury to yourself and others.

DID YOU KNOW?

SAFETY FEATURE

HERE IT COMES

December is National Impaired Driving Prevention Month — are you ready?

- Drunk driving crashes are 100 percent preventable, if you make one smart decision.
- Designate a sober driver before celebrations begin, or call a taxi or sober friend or family member to pick you up.

READY ... OR NOT?

Ready ... or Not? is a call to action for leaders, Soldiers, Army Civilians and Family members to assess their "readiness" for what lies ahead—the known as well as the unknown.

Throughout our professional and personal lives, events happen all around us. We are often able to shape the outcome of those events, but many times we're not. Navigating life's challenges is all about decision-making.

So are **YOU** ready ... or not?
